

Sleep Well Youth Hostel Espace du Marais

Rue du Damier, 23 – 1000 Bruxelles

Youth Hostel

SOME EXAMPLES OF ECODYNAMIC ACTIONS CARRIED OUT

Eco-management = thrift

- ✓ Installation of two condensing boilers equipped with a sensor regulation system
- ✓ Installation of a cogeneration system and double flow ventilation
- ✓ Installation of fully LED lighting in corridors, bedrooms and bathrooms
- ✓ Reduction of water consumption thanks to the placement of hand showers, economical aerators and dual push-button flushes. Very water-efficient dishwashers and washing machines
- ✓ Installation of a fountain connected to city water
- ✓ Monthly meter reading and consumption analysis
- ✓ Study and CO2 compensation carried out as part of a project with CO2Logic

Eco-management = good habits

- ✓ Raising awareness among customers, suppliers and employees of the environmental approach: participation in the EWR, Park(ing) Day, Green Corner...
- ✓ Selective sorting and regular verification checks for the following waste: residual, paper-cardboard, PMC, glass, batteries, light bulbs, used oil, organics...
- ✓ Composting of organic waste from the kitchen
- ✓ Use of recycled or FSC-labeled paper for all printings (flyers, brochures, check-in cards)
- ✓ Most of the cleaning products are environmentally friendly

Eco-management = creativity

- ✓ Customers are encouraged to use alternative means of transportation for motorized vehicles: signage for bicycle rental, guided walking tours, promotion of public transport and bicycle parking available.
- ✓ Presence of a technical building coordinator and an eco-advisor for the management of environmental aspects
- ✓ Environmental awareness via dynamic signage throughout the hostel
